

# Md Sourov Hasan

Aspiring System Designer & Software Architect | ITM Student, Daffodil International University

souov.hasan373@gmail.com | +880 1975-435003 | github.com/sourov-hasan | linkedin.com/in/sourov-hasan-emon | Dhaka, Bangladesh

## PROFILE

Information Technology & Management student (2024-2028) focused on full-stack development, databases, AI/ML, and system design. I learn by building practical projects and understanding technology beyond the surface.

## EDUCATION

### B.Sc. in Information Technology & Management

Daffodil International University | 2024 - 2028 (expected)

- Currently pursuing; focus on software engineering, databases, and system design.

### HSC - GPA 4.92 / 5.00

Dhaka College | 2022

### SSC - GPA 5.00 / 5.00

Kalai M.U. Government High School | 2020

## SKILLS

- Programming: C, C++, Python, JavaScript, SQL
- Web: HTML, CSS, JavaScript, PHP, full-stack development
- AI/ML: Pandas, NLP, model development & evaluation (Scikit-learn)
- Database: MySQL, ER modeling, normalization, architecture
- Design & Process: System design, OOP, SDLC, testing, UI/UX, HCI, Figma

## SELECTED PROJECTS

### Department of ITM Web Portal

Full-Stack / Backend Developer | HTML, CSS, JavaScript, PHP, MySQL

- Centralized portal: courses, faculty, student profiles, notices, resources, and administration.

### House Price Predictor (Web UI + Deployment)

ML / Application Developer | Python, Pandas, Scikit-learn

- End-to-end ML pipeline deployed as a usable prediction interface.

### Amazon Review Analysis App

ML / Application Developer | Python, NLP

- Preprocessing, exploratory analysis, model training, evaluation, and web integration.

### Fake News Classifier App

ML / Application Developer | Python, NLP, Scikit-learn

- Text classification workflow with dataset cleaning, feature extraction, and a web UI.

### Disaster Relief Management

Database Designer / Developer | MySQL, ER Modeling

- Normalized relational system coordinating victims, volunteers, resources, and donations.

### Task Manager & E-Commerce Application

Application Developer | CRUD, Auth, Cart, Orders, Admin

- Practical applications with persistence, backend integration, and admin workflows.

## CURRENTLY LEARNING

- Advanced system design and software architecture (AIQuest, Ostad)
